HOW RADWAY'S RENOVATING RESOLVENT CURES
CONSUMPTION.

To cure Consumption we must stop decay and rebuild and
heal the worn-out organs of the system that disease has consumed.

heal the worn-out organs of the system, for the Lung-sumed.

We must treat every organ in the system, for the Lung-are not the only organs affected. It affects the Liver, the Heart, the Kidneys, Bladder, and Pancreas; and, in fact every organ in the body is more or less tainted with decom-position and decay.

THE LUNGS

THE LUNGS

ARE THE BREATHING APPARATUS OF THE SYSTEM.
When the Lungs are in a state of decay they are unable to receive or emit the necessary amount of air requisite to sustain life. The greater the atmospheric pressure upon the air-cells, the more painful, irritable, and suffocating is the weight upon the large.

nually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

Office, No. 7 South Frederick street, Baltimore, Maryland, on the left hand side, going from Baltimore street, seven doors from the corner. Be particular in observing the name and number, or you will mistake the place.

DR. JOHNSTON,
Member of the Boyal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

ed sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solitary habit, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Seif Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as less of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to society.

from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEARNESS.

This grand and important Remedy has restored strength and rigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrife maladies which result from indiscretion 1. Such persons, before contemplating

MARRIAGE, should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without this, the journey through life becomes a weary pligrimage; the prospect heurly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own. Let no false delicacy prevent you, but apply immediately.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guaranty that the afflicted will find a skillful and honorable physician.

TAKE NOTICE.

It is with the greatest rejuctance that Dr. Johnston persons the first of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guaranty that the afflicted will find a skillful and honorable physician.

It is with the greates that Dr. Johnston per-ublic, deeming it unpro-e; but unless he did so. It is with the greatest rejuctance that Dr. nits his card to appear before the public, deer essional for a physician to advertise; but unl fessional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fail to fall into the hands of those imprudent, boasting impostors—individuals destitute of knowledge, name, and character—pediars, shoemakers, mechanics, &c., advertising themselves as physicians; ignorant quacks, who keep you trifling month after month, as long as possible, and in deepair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for he alone can cure you. To those unacquainted with his reputation he deems it necessary to say, that his credentials or diplomas always hang in his Office.

Weakness of the Organs Immediately cured, and full vigor restored.

A Refuge for the Negro! The following extract and editorial comment

FUGITIVE SLAVES .- The report of the Toronto tered Canada, during the last two years, at between five and six thousand. The whole number of colored persons in Canada is estimated at thirty thousand .- Exch.

How are these negroes circumstanced in Canada? Are they comfortable and prosperous? Do they stand the climate well? Do they make record of the country. He then says: good subjects? Are they not socially proscribed? Are the people willing to receive many more of them? We ask no idle questions. We are friendly to the negro, and desire his happiness and permanent welfare. It is our belief that these can best be promoted in Africa, and that he can there do most good; but we are not opposed to manent welfare. It is our belief that these can any scheme that will promote his welfare. Among the professed friends of the colored race, however, the professed friends of the colored race, however, of mine—from any assault here or elsewhere; for there are two sets of motives—one really favorable to him, the other merely hostile to the slave- that way from this personal assault as if I were owner. We realize the former only, and will go as far as the farthest in the prosecution of its

To this the following raply has been received: HALL OF REPRESENTATIVES,

April 23, 1852. MESSES. EDITORS: In your paper of Wednesday evening you inquire whether the fugitive slaves who fled to Canada within the last two years are comfortable and prosperous? And as you express an honest desire for information, I will remark that, from the intelligence furnished by the missionaries, and from the agents who have travelled among them, and from letters received from fugitives themselves, there was much suffering during the autumn and winter of 1850 and 1851. This arose from the large number who fied there upon the passage of the fugitive law, which passed in September previous. They were destitute of household furniture, bedding, clothing, and provisions. The latter they easily obtained there; but agents were sent from the benevolent people of the States bordering upon Canada with clothing, bedding, and furniture, and their situation was at length rendered comfortable, until they had an opportunity by their labor to provide for themselves. The country occupied by the agricultural portion of the fugitives is productive and healthy. They obtain their lands of the government at a very trifling expense, and many who have been there for years are now whealthy, live in good style, and educate their families. Others appear destitute of energy, and incapable of exerting the necessary skill and industry to obtain a competence, though I think there is far less abject poverty among them than is to be seen among the free

population in this city. Another class is scattered throughout the principal towns and villages of Canada west, employed as waiters and hostlers at public houses. They are generally in comfortable circumstances You inquire, Do they make good subjects? My information leads me to think there is no more crimes committed by them than by the same number of white people of the same intelligence. You inquire whether they are socially pre-

scribed? I understand they possess and exercise all the political rights and privileges of white citizens, and that complexion has but little influence upon their social relations with the white people. You inquire, Are the people willing to receive more of them? I understand they are willing to receive and to welcome all who come-to furnish

them with lands, to admit them as free citizens of her Majesty's province. Very respectfully,

We fear our correspondent's sanguine hopes have induced him to credit a too glowing account of the country and people he describes. But if he is correct, a tedious difficulty is now obviated ! What to do with the "darkies" has hitherto been the poser that ever emancipationist has had to encounter. That question, we must suppose, is now solved, and we have only to send them along on the underground railroad! Lest, however, the owners of slaves may not like to part with their " niggers," and especially without leaves-taking, we would suggest the propriety of running our Washington city "free niggers" off first. Very many of them are certainly but little respected where they are, nor have we seen any part of the United States in which they are so well repeach trees and 60 apple trees on the place, all bearing; also, about two hundred apple trees, ready for grafting. It is well fenced. The buildings are—a log house of four rooms, with a frame addition of three anxiety for their return to Africa, but a frame addition of three anxiety for their return to Africa. the United States in which they are so well reanxiety for their return to Africa; but as Canada is nearer, and the Canadians are willing to receive them, we had better "let 'em slide." There are riage-house, &c. Incre is a stream of water running through the place, with sufficient water and fall for a small mill. Price. \$40 per acre. Terms—one-third cash: a long credit for the residue, if desired; or, it would be exchanged for real estate in the city of Washington.

MARTIN BUELL.

At Buell & Blanchard's Printing Office, Sixth street south of Penn acre. in all our States, has established us in the conviction that they are the material to be first

Lest we may be misunderstood, however, we here take occasion to say, that we believe the impressions of Mr. Giddings to be altogether inorrect respecting the moral, social, and political ondition of the negro in Canada; while we are as well satisfied that he is not physically capable of prospering in that climate, as we are that the sugar-cane, the orange, and the citron cannot

the South Bend Register, who was present at the Indiana State convention to elect delegates to the Whig National Convention, thus speaks in the columns of his paper of the enthusiasm that prevailed:

"We have attended many Whig conventions in this State, but have never yet seen more enthusiasm, zeal, and determination manifested than in the one recently held at the capital. There wer no doubters-none who desponded; but all feld that, with the excellent ticket that was presented, half the battle was already fought. The conven tion unanimously instructed in favor of Winfeld Scott for the Presidency. There was not a whisper of dissent to this from the Ohio river to the lake. and all felt that, with his banner in the van, defeat was impossible. At every allusion to the old hero, the most deafening applause responded.

HEAVY SENTENCE OF A WOMAN .- In the Boston unicipal court, on Tuesday forenoon, Chief Justice Wells sentenced Margaret Russell, who was convicted of receiving and secreting \$2,000 of stolen money, to five years in the house of correction.

Liverpool is the largest shipping port in the

Mr. Mangum and Mr. Brooks.

We have sought in the papers of to-day the reply of Mr. Brooks made in the House yesterday to the remarks of Mr. Mangum in the Senate were published in this paper on Wednesday last: on Thursday, and have carefully read it over with the desire to do justice to both parties in (Canada) Anti-Slavery Society, just published, the unpleasant affair; but while it is somewhat puts the number of fugitive slaves who have enelaborate in its composition, filling nearly a column and three-quarters of the Republic, it contains so little substance that it would be totally profitless to quote it entire.

Mr. B. says he is much averse to personal explanations, but wishes to be placed aright on the

"I have but little respect for that chivalry which, before it assaults a Northern member of Congress, carefully consults the lines of latitude and longitude in order to know where to safely direct its remarks, and which has winning, woothe speaker of this article is of an age and in a position to protect him from any personal assault assaulted by my grandfather.'

He then proceeds to deny solemnly the authorship of the letter and editorial article attributed to him, and says :

"The letter to which the honorable gentleman from North Carolina (Mr. Stanly) alluded the other day was brought to me. No inconsiderable portion of that letter I struck out. Indeed, all the personal matters I wished to strike out, but remonstrance was made to me that the rumors which were put forth in that paper were rumors in the mouth of almost every man-rumors, of course, but the existence of which the writer could not deny in the form they were stated. The letter went before the public; and but yesterday, or the day before, I disclaimed all personal responsibility for its statements, facts, and allegations.

But it is said that there is a remarkable similarity of language between that letter and the language which I made use of in the caucus in the Senate Chamber upon another occasion. Having seen the letter, and having been fired by many of its sentiments, just and true, it is but natural, in warmth and excitement, I should bave given utterance to the same thoughts and the same language; for the language and thoughts were mine, as well as the language and thoughts of many others who are associated with Amazement, wonder, and astonishment have one common language, and, like "words that breath and thoughts that burn," spring from the tongue of every man when astonishing events ccur. Hence this similarity of language-hence this identity of thought. This accounts for itothing more

To us this denial is very much like an admis-

sion in effect. What follows here, respecting wife, liveries, and arriage, is badinage, and ends as follows: "I had rather be driven by a negro in livery, than, a Southern man, be the liveried coachman

of Northern Abolitionists, driving an Abolition team for the Presidency." For this Mr. Brooks received a very good round of Democratic applause. It was, of course, the reward he had anticipated, and, if precious to nim, he should be permitted to enjoy it unenvied. That it was not united in by the entire Democratic party may be readily accounted for by the fact that there are gentlemen in that party who cannot, even in a moment of excited party controversy, give their assent to the drivelling and ribald slanders of a defeated and prostrate rene gade against the purest men of the party he has

What follows relates to the alleged disaffection in the Whig caucus. Our readers have in the above the import of Mr. Brooks's defence. We heartily wish it were more to the point and more effective.
